

ClearShield Eco-Glass® - Recommended After-Care for Kitchen Splashbacks

Ritec's specialist maintenance solutions for glass are part of the world's first and only complete system for the renovation, 'non-stick', easy-clean protection and maintenance of glass surfaces. The award-winning ClearShield Eco-System® upgrades ordinary, high-maintenance glass surfaces into easy-clean ClearShield Eco-Glass®.

Keeping ordinary, unprotected glass kitchen splashbacks free from air- and water-borne contaminants such as water spots, fatty residues, fingermarks and other dirt can be very difficult, if not impossible, despite regular cleaning. As a result, clarity and visual appeal of the glass are spoiled.

Harsh and abrasive cleaning methods and compounds create further damage and accelerate the degradation process.

The durable and effective 'non-stick' performance of ClearShield Eco-Glass® ensures glass splashback surfaces are always much easier to clean and keep clean, stain-resistant and maintain visual appeal for longer.

Recommended After-Care

To optimise the performance and durability of ClearShield Eco-Glass® on kitchen splashbacks, please turn over for the recommended basic maintenance programme.

Maintaining ClearShield Eco-Glass® on Kitchen Splashbacks

- **Daily (or as required)**

Rinse / wipe off any deposits using a damp microfibre cloth.

- **Periodically**

Ritec After-Care for ClearShield Glass is highly effective to maintain the 'non-stick', easy-clean performance of ClearShield® protection.

This product quickly and efficiently removes light water spots, fatty / greasy residues, fingermarks and other general dirt from glass kitchen splashbacks. To use:

- a. Spray onto the glass surface
- b. Agitate with a T-bar or sponge
- c. Rinse thoroughly with water
- d. Squeegee dry

Ritec After-Care for ClearShield Glass can be purchased from www.clearshield.biz.

For stubborn water spot deposits caused by limescale / mineral salts, we recommend the use of **Ritec Limescale Remover**. Visit www.clearshield.biz or contact us for more information.

Ritec After-Care for ClearShield Glass is not suitable for sandblasted glass.

Glass protected for life

ClearShield Eco-Glass® performs indefinitely if a simple re-application is carried out once its performance becomes noticeably reduced in terms of ease of cleaning and resistance to staining. The professional re-application can be carried out in-situ by a specialist applicator. Please contact us for more details.
